The driver didn't have insurance.
Elisabeth didn't have a husband.
The company didn't have a large production.
Paul didn't have a good record.
The employee didn't have a good opinion of Tom.

Consommations de carburant :

Si la Jag' consomme **20 litres aux 100 km** ,
Elle consomme : $20 : 3.8 = 5.26$ gallons aux 100 km
Avec UN gallon , elle parcourt : $100 : 5.26 = 19$ km
Transformons les km en miles : $19 : 1.609 = 11.8$ miles
Donc , la Jag' parcourt **11.8 mpg** (miles per gallon)
En Grande Bretagne : 13.98 mpg (because UN gallon impérial vaut 4,5 litres)

Pour la FIAT :

Elle parcourt **50 mpg** , soit 50 miles avec UN gallon
(3.8 l)
Soit 80,5 km avec 3.8 litres
Consommation : **4.72 litres aux 100 km**
En Grande Bretagne, on dira quelle parcourt : 59 mpg

Etonnant ? Non ?

La chanson de l'étape

My prayer

When the twilight is gone and no songbirds are singing
When the twilight is gone you come into my heart
And here in my heart you will stay while I pray
My prayer is to linger with you
At the end of the day in a dream that's divine
My prayer is a rapture in bloom
With the world far away and your lips close to mine
Tonight while our hearts are aglow
Oh tell me the words that I'm longing to know
My prayer and the answer you give
May they still be the same for as long as we live
That you'll always be there at the end of my prayer
